MEMORANDUM

SUBJECT: Review of FIT/3012 Site Reports

FROM: Gerald Fontenot, Chief
Field Response Section (6E-EF)

TO: Martha McKee, Chief
Site Assessment Section (6H-ES)

It has been determined in accordance with CERCLA, Section 104(b) and 300.65 of the NCP that these sites do not appear to warrant an immediate removal action at this time. When and if a site on this list does appear to fulfill the immediate removal criteria, the Emergency Response Branch should be notified immediately. Those sites marked with "*" contain references to recommended additional FIT investigation. We will be interested in any further reports that enable us to more adequately assess those sites.
